Report for June 1980

"SIOUX FALLS EMPLOYMENT PROJECTIONS NOW AVAILABLE"

According to the Sioux Falls Employment Projections 1985 report an annual average of 4,165 openings in the SMSA is expected over the 1976 to 1985 time period. The openings are available because of replacement and expansion needs.

Replacement of employees leaving the labor force may be the reason for 57.7 percent of these openings. The remainder of openings may be due to expansion needs of growing industries. Rapid expansion for white collar workers, moderate expansion for blue collar workers and service workers and a decline for farm workers is forecasted.

The June 1980 Sioux Falls Employment Projections 1985 incorporates a Bureau of Labor Statistics Methodology that examines long term industry and economic trends. The resulting occupational information is provided for employment & training planners and others. Copies of the publication are free and may be obtained from Research & Statistics, Department of Labor, P.O. Box 1730, Aberdeen, SD 57401.

LABOR FORCE

As further evidence of a sagging state economy, the South Dakota unemployment rate rose to 4.4% in June. That was a continuation of a trend which began in April when the rate jumped to 4.0%. The June rate, which is the second highest since the State began seasonally adjusting, compared with 4.3% in May and 3.9% one year ago. It was, however, well below the national average, which dipped to 7.7% in June.

The total number of South Dakotans unemployed in June was 14,800. That was slightly higher than the May figure of 14,600 and 13% ahead of the June 1979 figure of 13,100.

Total employment, which has been declining since February, dropped again in June to 320,100. That compared with 323,100 in May and 324,100 in June last year.

NONAGRICULTURAL WAGE AND SALARIED EMPLOYMENT

Total nonfarm payroll employment in the state showed a one percent seasonal increase from May to June, but it was down from one year ago. Among the eight major industry divisions, only three had gains in employment over the past year. Manufacturing employment was off 7.0% at 25,400. This was primarily the result of a 40% decline in the lumber and wood industry in the durable goods sector. But nondurable goods was also down 2%. Construction employment was 5% below one year ago at 13,200. Building construction and special trades employment were down 13% and 8% respectively. Transportation and public utilities employment, led by a 14% drop in railroad employment, was down 2%. Trade employment dipped 0.7% as wholesale durable goods employment dropped 8%.

HOURS AND EARNINGS

The average production or nonsupervisory worker in private industry in South Dakota worked 33.8 hours a week in June at $5.61 an hour for a gross weekly wage of $189.62. The average number of hours worked was down from 35.3 one year ago, but the average hourly wage was up 10.9%.

SIOUX FALLS SMSA

Unemployment was up again in Sioux Falls in June. The rate was 4.5% compared with 4.2% in May and 3.1% in June one year ago. The total number of Sioux Falls residents unemployed
